SIR:

I am writting to you that I have a friend who is deaf, she likes to watch television with me. The only way she can is with close caption. If you take away the service on the t.v. she will not understand what is on the television..

She has the mind of a child at times, she has to be told what is on the television. She does not understand all that is on the television. So we talk about it.

I am handicapped myself, what will be next to be taken away, walkers, wheel chairs, parking place and help for the handicapped.

THANK YOU

*Mary Ann Tompkins*
